PROFILE

I'm a Frontend Engineer with over 4 years of development experience fueled by the thrill of crafting user-friendly web apps with React, NextJS, and more (ALX Alumni, here!). I'm a team player who thrives on tackling challenges to create innovative features and elevate UX. Let's build something awesome! #alwayslearning

EXPERIENCE

Frontend Engineer   📅 Aug 2024 - Present
Oxygen X | Nigeria

- I develop responsive web applications for our digital lending platform, ensuring seamless user experiences. I integrate frontend applications with the backend systems, e.g., Core Banking Applications (CBA) and Taktile's decision engine, enabling real-time data exchange for efficient credit underwriting and transaction monitoring. Additionally, I optimise user onboarding flows and implement advanced verification mechanisms to enhance security and compliance.

Large Language Model Tester   📅 July 2024 – Dec 2024
Freelancing | Remote

- Conducted comprehensive testing and evaluation of large language models, including Claude, Gemini, and other cutting-edge AI systems, using specialised in-house testing frameworks. Developed and executed rigorous test protocols to assess model performance, accuracy, and response quality across diverse use cases and scenarios.

Frontend Engineer   📅 Nov 2023 - Mar 2024
Ezyswap | Nigeria

- Collaborated with front-end developers to improve app performance, implement PWA capabilities, and integrate KYC and referral features using React, Tailwind CSS, and various styling components.
- Enhanced user experience by improving app responsiveness, implementing the sell crypto feature for web3 compatibility, and fortifying authentication logic by implementing protected routes.
- Revamped site pages to align with current trends, incorporate essential features, and prioritise accessibility enhancements.
- Actively participated in bug-fixing and troubleshooting efforts, demonstrating a collaborative approach to problem-solving within the front-end development team.

Frontend Engineer   📅 Jun 2023 - Mar 2024
Flare Up Network

- Developed and implemented interactive user interfaces for multiple platforms, including Users Platform, Business Platform, Admin Platform, and Super-Admins Platform, leveraging NextJS.
- Integrated robust authentication mechanisms and middleware for protected routes, ensuring secure access to sensitive functionalities.
- Designed and deployed key admin features such as dashboard analytics, verification assignment, rating management, dynamic form creation, and user administration.
- Ensured seamless mobile responsiveness across Admin and User modules, following the best practices and standards of the industry.

Frontend Engineer   📅 Aug 2022 - Jul 2023
Transid Media

- Worked as an experienced front-end developer and CMS developer, proficient in Webflow, WordPress, and React, with demonstrated expertise in developing responsive and user-friendly websites using diverse stacks.-------
- Collaborated on the development of the company's websites as well as websites contracted to build, ensuring their responsiveness and user-friendliness.

Lead Training/facilitator   📅 Jul 2023 - Present
Global Shapers Community Ota Hub

- Leading training programs for students and facilitating the setup of partner schools for success, including the establishment of tech labs and provisioning of necessary gadgets.
- Collaborating with a dedicated team of Hub members, each contributing their unique skill sets, proficiencies, and experience to ensure outstanding performance in the role. Global Shaper

Member

Global Shapers Community Ota Hub

- Global Shaper-------
- I taught coding to school children, fostering creativity and problem-solving through workshops and programs.

Junior Frontend Developer

📅 **Mar 2022 - Aug 2022**

The Bulb Africa

- Managed the company's various websites and web applications using React JS, Next JS, Redux- Toolkit, and WordPress.
- Maintained web applications and proactively implemented new features in collaboration with other developers, continuously seeking optimal solutions.

Intern Frontend Developer

📅 **Aug 2021 - Mar 2022**

Bulb Africa

- I undertook a comprehensive industrial attachment program as part of my university studies, specialising in front-end development.
- Acquired hands-on experience in developing and maintaining websites and web applications using React, Vue, JavaScript, and WordPress.

Digitization-contractor

📅 **Nov 2018 - Dec 2021**

SRMS

- Assisted with digitisation, data archiving, and data process management for notable companies, including African Alliance, AELEX Legal Firm, Cowry Asset Management Ltd., and Lagos State Local Government.
- Effectively managed information received and generated by organisations, ensuring efficient workflow and prompt scanning of multiple documents.
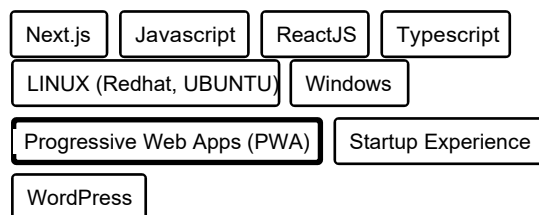

EDUCATION

Bachelor of Engineering, Eng, Computer Engineering

📅 **2023**

Olabisi Onabanjo University | Ijebu Ode, Nigeria

- Bachelor of Engineering from Olabisi Onabanjo University with B.Eng

SKILLS

| Next.js | Javascript | ReactJS | Typescript |

| LINUX (Redhat, UBUNTU) | Windows |

| Progressive Web Apps (PWA) | Startup Experience |

| WordPress |

LANGUAGES

English   Fluent
